Description of Program

Students attend Sheridan Technical College on Mondays from 8:00 am to 4:30 pm while working at their sponsoring Audi dealership part time the rest of the week. Students will work approximately 20 to 30 hours a week at an Audi dealership, under the supervision of a Master Technician, earning \$11.00 per hour totaling approximately \$27,000 during the program. Audi students will be encouraged to take the ASE Automobile Certification Tests during the normal length of the program and should have at least four (4) ASE certifications upon graduation. Students will also obtain official Audi Factory Training in a variety of areas. This training is recognized by Audi dealers nationwide. As technology increases in automobiles, the need for highly skilled factory trained technicians increase. The average Audi graduate should earn into the \$40,000 range within a couple of years after graduation. Many technicians earn over \$50,000 a year and it is not unusual to earn over \$75,000 a year. For more information and details about this program contact the Audi Training Coordinator at 754-321-3900.
