Hello Career!

26/27

Main Campus 5400 Sheridan Street • Hollywood, FL 33021 • Tel: 754.321.5400
West Campus 20251 Stirling Road • Pembroke Pines, FL 33332 • Tel: 754.321.3900
High School Campus 3775 S.W. 16th Street • Fort Lauderdale, FL 33312 • Tel: 754.321.7450

AUTOMOTIVE COLLISION TECHNOLOGY TECHNICIAN

Schedule

- **Full Time: Monday - Friday**
7:00 am - 1:45 pm

New Term Start Date

- August 10, 2026
- October 13, 2026
- November 16, 2026
- January 5, 2027
- March 29, 2027

Orientation

- **Thursday** - see back page for details

Program Content

- Basic Trade and Refinishing Skills
- Frame and Unibody Squaring and Aligning
- Mechanical Skills
- Related Welding
- Glass and Miscellaneous Repairs
- Sheet Metal Repair Skills
- Paint Systems and Undercoats
- Trim-Hardware Maintenance
- Damage Analysis and Estimating
- Employability Skills

Program Length

1400 hrs | Full Time | 12 months / 47 weeks

Approximate Cost

\$6,690

Location

Main Campus

Orientation is held at the STC Main Campus

📍 5400 Sheridan Street
Hollywood, FL 33021

☎ Tel: 754.321.5400

Description of Program

The Automotive Collision Technology Technician Program prepares students for careers in the collision repair industry, including roles as collision repair technicians, paint repair technicians, estimators, body shop office personnel, material suppliers, dealership service advisors, glass technicians, and ADAS calibration specialists. Collision repair technicians restore vehicles damaged by collisions or natural events, applying skills that span structural repair, refinishing, and emerging vehicle technologies including advanced driver assistance systems. The program delivers extensive hands-on training in a fully equipped collision repair shop environment. Students work directly on vehicles and develop real-world skills in: refinishing techniques and paint mixing and application; sheet metal repair and panel replacement; frame and unibody squaring and aligning; paint systems, undercoats, and primer application; related welding processes (MIG, squeeze-type resistance spot welding); trim hardware maintenance and interior components; Glass removal and installation; damage analysis and repair estimating; hybrid and electric vehicle repair considerations; ADAS recalibration procedures and documentation. Shop time is structured to mirror real-world production conditions, giving students direct experience with the tools, equipment, and workflows used in today's collision repair facilities. Curriculum is aligned with I-CAR Academy training standards, the industry benchmark for collision repair competency. Through a curriculum that balances classroom instruction with hands-on shop practice, students build the technical skills and professional habits needed to step into productive roles from day one on the job. Program graduates are positioned for entry-level and advancing careers at independent collision centers, dealership body shops, fleet repair operations, and material supply companies. This program prepares students to sit for Automotive Service Excellence (ASE) certification exams, specifically the B2 through B6 tests covering non-structural analysis, painting and refinishing, structural analysis, mechanical and electrical components, and damage analysis and estimating.

Requirements for Admission

- Orientation/Testing/Counselor Interview - see back page for details

Industry Certification & State Credential Exams

Students will be prepared to take an approved state and/or nationally recognized industry certification or licensure exam in their field of study.

- Automotive Service Excellence (ASE) B2 through B6

FLORIDA'S PUBLIC TECHNICAL COLLEGE SYSTEM

Welcome to Sheridan Technical College!

General admissions and registration procedures are as follows:

Orientation

Prospective students must attend a free 1-hour program orientation before beginning the application process. Orientation provides valuable information about the program and next steps for enrollment.

Orientation registration instructions are as follows:

1. Visit www.sheridantechnicalcollege.edu/orientation-schedule or scan QR Code
2. Select "Click Here to View Orientation Schedule"
3. Select the program orientation of interest and complete the registration form

Note: After registering, an email will be sent to the address you provided. This email will contain the link needed to access the orientation on your scheduled date and time.

Admissions & Financial Aid Process

For the complete admissions process, visit www.sheridantechnicalcollege.com/getting-started or scan the QR code. Applications are accepted year-round, so don't delay —start the admissions process today and take the first step toward your new career!

Florida Residency for Tuition Purposes

A "Florida resident for tuition purposes" is defined as someone who has, or a dependent person whose parent, legal guardian, or spouse has, established and maintained legal residence in Florida for at least twelve consecutive months prior to the first day of the academic term. Individuals who do not meet this requirement are classified as non-Florida residents and are subject to a higher tuition rate. To be considered for in-state tuition, applicants must complete the Florida Residency Affidavit for Tuition Purposes and submit two supporting documents that verify Florida residency. For detailed information on acceptable documentation and to access the form, please refer to the admissions process or contact a program counselor or advisor for assistance.

Basic Skills

Students enrolled in programs of 450 hours or more are required to take and pass a basic skills test in order to receive a Career Technical Education certificate upon program completion.

However, students enrolled in programs that are less than 450 hours are not required to take the basic skills test. Additionally, some students may qualify for exemptions based on specific criteria. For detailed information about testing requirements, exemptions, and test preparation resources, students should visit www.sheridantechnicalcollege.edu/basic-skills-prep-guide, scan the QR code or contact the program counselor/advisor.
