Description of Program

The Legal Administrative Specialist program is designed to prepare students for employment in legal office environments in roles such as Front Desk Specialist, Legal Administrative Support, or Legal Administrative Assistant. The program introduces students to legal terminology and provides a foundational understanding of the legal system and the legal profession. Students gain hands-on experience using Microsoft Office 365/2019 and other software applications commonly used in legal settings. This includes word processing, PDF creation and document assembly, spreadsheets for timekeeping and billing, databases for case management and docket control, and cloud-based tools for electronic discovery, litigation support, computer-assisted legal research, email communication, and trial presentation graphics. The curriculum also emphasizes the development of professional skills and prepares students to sit for the Accredited Legal Professional (ALP) certification exam through NALS, earn Microsoft Office Specialist (MOS) certification, and receive the Legal Administrative Specialist Certificate upon completion.
